MKHAYA

GAME RESERVE

An unforgettable safari getaway often comes with an equally unforgettable price tag. Not at Swaziland's Mkhaya Game Reserve. This reserve continually receives rave reviews from journalists, safari experts and visitors from all over the world for offering "one of the most unique lodges on the continent", "exceptional service and cuisine", "National Geographic game drives" and rhino walks which are "on a par with a mountain gorilla encounter in Central Africa". And the best part? It also offers truly excellent value for money, as this AA Quality Assured Accommodation Award, the result of first-hand guest feedback, attests to.
